

# NATURE IS PRESENTING TO US

Tell stroy about the design looking into the siteplan which have natural site items, the volcano, natural baths, lake, and the northern light. This site already has all kinds of amazing elements presented by the mother of nature. Therefore, the idea is to have a main sitting area in the front of the presentation. Also, the nature influ-enced our design in various different way, which starting from the roof, planetari-um, sitting area, walkways, and the facade. Next, the main important element which this museum is focused on is the volcano and the northern light. Therefore, in the process of the design, this museum is gathering all the information and reflects it on the design.
