

EuroVelo 6: Switzerland

The intent of this design is to build a self-sufficient, easily constructed building that will collaborate with its environment. Inspiration was taken from the shape of a bike frame. This is shown only in the plan view and is subtle to avert from thematic design. The logo Salute is a French word that means hello and goodbye which is what the bike stop encompasses.

Location:

Schaffhausen, Switzerland is close to the German border and is located right next to the bike path. The site is right next to Rhein Falls which is Europe's largest plains waterfall. Amenities near by include: Schloss Laufen am Rheinfall (Castle), nearby restaurants and grocery stores, a bus stop, churches, and ATM's.
