

GUEST CABINS

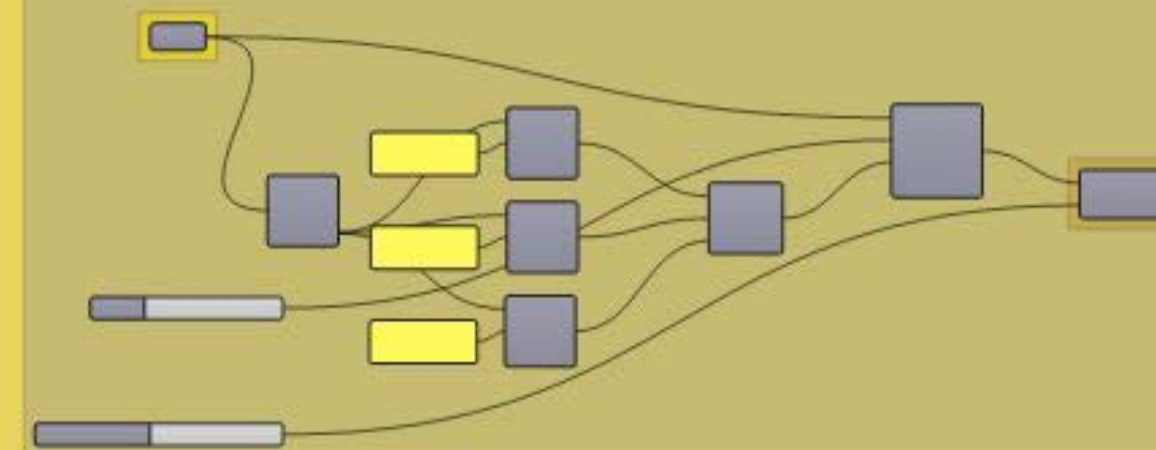

PLAN

PARAMETRICALLY DESIGNED PANELS FOR THE MOVABLE GUEST CABINS ALLOW FOR A GRADIENT OF OPENINGS TOWARDS THE SKY, THAT BEGIN TO CLOSE TOWARDS THE PRIVATE PROGRAMATIC SPACES. THE PARAMETRIC ROOF DESIGN CONTAINS SOLAR PANELS AND WATER COLLECTION SYETMS THAT FOLLOW THE PARAMETRIC FORM. TAKING INTO CONSIDERATION THE UNEVEN TERRAIN, THE CABIN WILL HAVE ADJUSTABLE FOOTING SYSTEMS TO ADJUST TO THE LANSCAPE.
